zevim

THE MOST EFFICIENT, DURABLE AND COST EFFECTIVE STORAGE SOLUTION FOR YOUR VEHICLE

# ZEVIM VEHICLE RACKING SYSTEMS

## MODULAR – SAFE – DURABLE – LIGHT WEIGHT

**Zevim's racking system is a modular system. It is build out of standard components assembled together to offer the ideal solution for you and meet even the most demanding requirements.**

No matter the size, no matter the type and no matter the brand of your vehicle Zevim has the perfect storage solution for your vehicle. Also thanks to the large and various range of options and accessories, our system will cater for a wide range of applications or sector of activity (e.g. tradesman, mechanic, municipality, maintenance and cleaning contractors, utility company, police force etc...)

By combining the different Zevim's components you can safely store and organise all your tools, parts and equipment into your van. Also for the non- standard product we often have a solution.

At the end, all tools and parts will have their own place. This will save you a lot of time and money. No more time wasted to look for this tool

or that part. The unnecessary journeys to the hardware shop to buy a component that you can't find in your van will be a thing of the past. The Zevim Racking System is build out of components of steel and aluminium. This makes our system very robust and light yet offering you high durability.

The production takes place in factories with ISO-9001:2008 certifications. It is therefore logical that we can offer a 5 year manufacturer's warranty.

But not only our high qualified production leads to a strong brand, also the service should be of high standard! That's why we only sell and deliver our racking through a network of selected and trained dealers. These dealers are professional wholesalers or specialised companies in van conversion. Those dealers are authorised by us to advise and sell the Zevim racking systems and are your local contact.

The installation of the Zevim Racking Systems will take place in the workshop of these authorised dealers.

**5 year warranty**

**5 year manufacturer's warranty**

Thanks to  
•our high standard of production  
•our strict Quality Control
